

## ABOUT PHYSIOLAB

PHYSIOLAB is a UK based company supplying highly effective cooling and compression products that aid orthopaedic swelling and pain management.

### HOW WE HELP

Pre-set treatments ensure that the PHYSIOLAB is controlled, safe and efficient, so the PHYSIOLAB S1 Device can be used immediately post-surgery. Delivering treatments that are controlled, safe and efficient.

- ✔ Effective pain management
- ✔ Swelling (oedema) reduction
- ✔ Inflammation control
- ✔ Improved mobilisation
- ✔ Quicker rehabilitation/recovery

### WHEN WE HELP

Common surgery types where PHYSIOLAB complements post-surgical recovery:

- ✔ Knee surgery (eg. ACL, TKR, HTO)
- ✔ Shoulder surgery (eg. Rotator cuff surgery)
- ✔ Hip surgery (eg. THR)
- ✔ Ankle surgery (eg. reconstruction surgery)

### PHYSIOLAB HOME RECOVERY PACKAGE

PHYSIOLAB offer short-term post-surgery packages that enable you to continue your recovery at home.

97% of post- surgical customers who used Physiolab Home Recovery Package said it was effective at reducing their swelling.
